

INFINITY TRACKING LTD

'Know when, where and now'

COMPANY PROFILE

About Us

Infinity Tracking Limited is a forward thinking Kenyan company at the forefront of smart tracking and sensor technologies.

We specialize in GPS tracking, fleet management and environmental sensors, powered by trusted systems and enhanced with the latest Artificial Intelligence (AI).

Our AI integration enables smarter insights, predictive alerts and fast, automated responses helping our clients stay one step ahead.

Whether you are monitoring vehicles, cargo or temperature sensitive goods, our solutions ensure you always know where, when and now.

Mission

Making every movement meaningful so you always know where, when and now.

Vision

To be Africa's most trusted provider of smart tracking and sensor technologies, leading the way in safety, transparency, and digital mobility.

Our Services

VEHICLE GPS TRACKING

Real time location monitoring, movement alerts and route history for private and commercial vehicles.

MOTORCYCLE TRACKING

Track your motorcycle's live location, receive instant movement alerts and prevent theft with our reliable GPS tracking solution. Perfect for personal riders, delivery services and motorcycle fleets.

FUEL MONITORING SENSORS

Fuel is your fleet's lifeblood, we protect it with precision monitoring and advanced tracking to reduce losses and boost efficiency.

WIRELESS TEMPERATURE SENSORS

Get real time temperature monitoring for your vehicles, swimming pool or cold room storage with alerts, history logs and compliance reporting.

Our Services

OBD TRACKING DEVICES

Plug and play OBD tracking devices that deliver instant diagnostics, location tracking and driver behavior insights all in one smart solution.

INTELLIGENT CARGO TRACKING

High security electronic locks with GPS, RFID, SMS unlock, geofencing and tamper detection.

Built for containers, trailers and sensitive cargo.

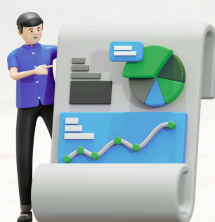

FLEET MANAGEMENT SOLUTIONS

Comprehensive fleet management solutions designed to streamline operations, reduce costs and deliver full control across your entire vehicle network.

EMERGENCY RESPONSE INTEGRATION

Seamlessly integrated emergency response tools to ensure swift action and support during critical events.

CUSTOMIZED REPORTING & ANALYTICS

Transform raw data into actionable insights with tailored reports and instant analytics for smarter fleet decisions.

Our Clients

Regional Logistics Companies | Private Vehicle Owners | NGO Field Transport Units
Cold Chain Transport Providers | Schools & Bus Transport Operators
Fleet-Based Businesses in Nairobi & Beyond
